IPC-GS8410

Micro-ATX/ATX standard motherboards
4U 19" rackmount barebone

Features:

19 inch rackmount chassis for large ATX/MATX motherboards. Compatibility is designed around board specifications, allowing ATX industrial and Micro-ATX industrial motherboards in the same chassis.

Reinforced chassis: pressed ribs on both sides improve chassis strength

Easy dust-filter replacement: guide rails on the sliding filter frame simplify removal and replacement

EMC: folded edges around the optical drive fit closely to the chassis to improve radiation resistance

Specifications:

Performance	
Compatible motherboard	Micro-ATX and ATX standard motherboards
Storage	1*3.5 inch HDD shock-mounted bay; 1*2.5 HDD shock-mounted bay (unit omitted in source) 2*5.25 inch optical drive bays; blank panels when unused
I/O interfaces	
Interface	Front: 2 USB2.0 ports, ATX rocker/reset switches, power/HDD indicators, lockable door
Environment	
Operating environment	0°C~50°C; 5%~90% (non-condensing)
Storage environment	-20°C~60°C; 5%~90% (non-condensing)
Power	
Power	250W, 300W, 350W, 500W PS2 ATX single PSU; 400W+400W redundant PSU
Physical	
Overall dimensions (WxHxD)	430mm (W, excluding mounting ears)*177mm (H)*450mm (D)
